GRAHAM,**TAZEWELL COUNTY, VA.**

The Graham Land and Improvement
 company will offer for sale on

Thursday, April 10th

at 10 o'clock, at the office of the com-
 pany in Graham, town lots, as shown
 on plan, now ready for distribution.

TERMS OF SALE.--One-third cash,
 one-third in one year, one-third in
 two years, with six per cent interest per
 annum on the deferred payments.

Applications for lots at the com-
 pany's prices will be received up to
 noon on Tuesday, April 8th, 1890.

Parties making application by letter
 will be careful to designate the section
 and the number of the lot or lots de-
 sired.

Lots for which more than one ap-
 plication shall be received will be sold to
 the highest bidder at Public Auction
 on Thursday, April 10th, at 10 o'clock,
 at the office of the company in Graham.

After the public sale of lots above
 mentioned, the balance of the lots re-
 maining unsold will be offered to the
 public at the prices fixed by the com-
 pany, which range from \$125 to \$500
 each according to location.

The Graham Land and Improvement
 company has purchased about 900
 acres of land, including the old town of
 Graham, at the junction of the Clinch
 Valley and Ohio Extension of the Nor-
 folk and Western railroad in Tazewell
 county, Virginia, and has improved
 the property by laying it out in streets
 and lots.

The land is so situated, being at the
 junction of two important branches of
 the Norfolk and Western railroad, with
 the Bluestone river running through it,
 and in close proximity to the Pocahon-
 tas coal field, that it is believed it
 will within a short period become an
 important iron manufacturing centre,
 as well as a distributing point for the
 entire coal field.

The Clinch Valley and the Ohio ex-
 tension of the Norfolk and Western
 railroad run through a section of coun-
 try heavily covered with poplar, white
 and chestnut oak timber, and it is be-
 lieved that Graham at the junction of
 these two branches is a most desirable
 location for the establishment of saw
 mills, tanneries, pulp mills, and other
 wood-working establishments.

The following desirable industries
 have already been secured:

The Graham Furnace company, with
 a capital of \$250,000, have under con-
 struction an iron furnace; dimensions,
 16x70 feet, with a capacity of about
 100 tons per day, and expect to be in
 blast by November first.

The Virginia Lumber company, with
 a capital of \$50,000, are erecting their
 buildings and will be in operation by
 the first of May.

Arrangements are also being made
 with parties who propose building at
 once a large general supply store and
 warehouse, buildings to cost about
 \$10,000, and having a working capital
 of not less than \$50,000.

A company with a capital of \$20,000
 is also formed for the manufacture of
 ice, and expect to be in operation in
 the course of a few months.

The Graham Land and Improvement
 company have plans perfected for a fine
 hotel, which they hope to have ready
 for occupation by September first. The
 hotel will be heated by steam and
 lighted by electricity, and it is the aim
 of the company to make it one of the
 most attractive hotels in Virginia.

Parties desiring to purchase lots will
 be furnished with maps and price list
 and any desired information by address-
 ing R. K. Wright, Jr., Agent, Graham
 Virginia, or E. J. Collins, Secretary,
 Bullitt Building, Philadelphia, Penn-
 sylvania.

Present, H. M. Sill, vice president,
 Edward Hiley, Secretary and treasurer,
 E. J. Collins, Directors, A. J. May,
 Tazewell Court House, Va.; C. M.
 Clark, Philadelphia, Pa.; J. D. Ser-
 geant, Philadelphia, Pa.; Thomas Gra-
 ham, Philadelphia, Pa.; J. B. Greaver,
 Graham, Va.; J. H. Dingle, Philadelphia,
 Pa.; H. M. Sill, Philadelphia, Pa.

A MINERAL PALACE.**New Being Erected by Public Spirit-**

ed Citizens of Roanoke.

The mineral palace now being erected
 in Pueblo, Colorado, will cost about
 \$250,000. It will be of handsome de-
 sign, the exterior being a series of
 square columns and beautifully polished
 stone. The carving will be ornate.

All parts of the building will be made
 of the products of Colorado's
 mines, the owners in all counties
 in the State having sent in their choicest
 and richest specimens. In the interior
 will be seen every variety of mineral
 production from stone and coal to pure
 gold, the value of which will be at least
 \$750,000. The expense of developing
 this grand and brilliant conception will
 be assumed by the public spirited citi-
 zens of Colorado.

It is intended to be a permanent
 exhibit, open every day of the
 year round, and its originators de-
 sire to have the choicest specimens of
 mineral wealth from every State in the
 Union represented side by side with
 the resources of Colorado. Building
 stone, granite and marble, is also de-
 sired. The building will be lighted by
 2,000 incandescent electric lights. It
 is the intention to reproduce this in
 duplicate of design and brilliancy of
 decoration and display, but somewhat
 reduced in size, as the Colorado mineral
 exhibit for the world's fair in Chicago
 in 1892, should that scheme materialize.
